

Fastening systems for Dincel Structural Walls: Starter bars and Wall Props

RE 100 Epoxy mortar for starter bars in concrete

Description

Item Number

Key features

Hilti HIT-RE 100

HDM 500 Toolbox KIT (incl pump, brushes)

TE-YX/ TE-CX Hammer drill bit metric

2123383
2123386

3497417

- Works like cast-in with post-installed rebar connections
- Easy cleaning method simplifies installation
- Suitable for indoor and outdoor applications as well as for use in all conditions (dry, wet, water-filled holes, underwater)
- Long working time allows greater flexibility during installation
- Renovation / upgrades with post-installed rebar's
- Rebar doweling / secondary post-installed rebar's

- Fast, easy foil pack loading
- Minimal mortar dripping after pressure release
- Ruggedly built to withstand tough jobsite conditions
- Well balanced for better handling
- High efficiency even at low temperatures

- Solid carbide head for top performance, maximum reliability and less jamming when hitting rebar
- Heat-treated flute for less wear, ductile core for robustness
- Drill bit head embedded on four sides for maximum durability and longer life
- Wear indicator mark for estimation of wear

Mechanical anchor for Dincel wall Bracing

Description

HUS-V -universal screw anchor

Hammer drill bit TE-CX 8/22

Impact socket SI-S 1/2"-13 S

SIW 22-A Cordless impact wrench

Key features

- Faster & Easy Installation
- Completely Removable
- Small spacing and edge distance
- Safety: Verified reusability
- Nice Head Finish

- New solid carbide head for less wear
- Indicator mark at the head verifies suitability for setting anchors as long as the mark is visible
- Good resistance to high temperatures
- Fast & accurate drilling progress thanks to new flute design

- Two detent holes to increase connection accuracy between the socket and 1/2" anvil
- Dual detent bevels
- Quick socket attachment
- Tightening nuts and bolts
- Anchor fastening
- Driving and removing wood screws

- High-efficiency brushless motor for long life and more work per charge
- Compact design allows easy use in tight corners and wherever space is limited
- Three gears and electronic speed control for easy switching between different driving speeds and torque
- 4 LEDs around the chuck illuminate the work surface for a good view of the task at hand
